

# Peninsula Resilience Planning - Safety Element Update in East Palo Alto

## How can we make our communities more resilient to hazards?

Join us for a roundtable discussion on the update to East Palo Alto's General Plan Safety Element — a critical document that guides policies and programs to protect our communities from natural hazards like flooding, wildfires, and extreme heat. We want to ensure that all communities have a voice in the planning process, especially those that are most vulnerable to the effects of natural hazards. Your voice is vital in shaping a safer, more resilient East Palo Alto for all of us.

***Dinner and a stipend will be provided to honor your time and contributions.***
